

**The Personnel
Of Mooncor Oil & Gas Corp.**

**K. Michael Collins, B.Sc. (Geology), B.Sc. (Honours)/M.Sc. (Zoology), P. Geol.
V.P. for Exploration, Mooncor Oil & Gas Corp.**

Michael is a Professional Geologist with 23 years of oil and gas experience. He has primarily been involved in exploration and development in Alberta, Saskatchewan, British Columbia, and northern Canada. He has drilled over 175 wells and discovered several million barrels of recoverable oil and more than 250 BCF of gas in both clastic and carbonate reservoirs. Michael began his career with Dome Petroleum and has been a consultant to Canadian Occidental Petroleum, Crestar Exploration and Pioneer Canada as well as several smaller companies. As an employee of Anderson Exploration, he started their Coal Bed Methane Team in 1999 and participated in their Unconventional Gas Team. He has also been involved in the start-up of five companies and sat on the board of two. Michael is Vice President for Exploration of Mooncor Oil and Gas Corp.
